Bryce called me back. He is out until 3/30 not 4/30. He does plan to be at the 4/7 meeting.

I talked to him about the MB project, the U&O FIP, the TSA report and the EE aged out letter. He seemed fine with all.

I told him that we (minus me) looked forward to having a productive meeting on the 7<sup>th</sup>.

I called Bryce Bird this afternoon to talk to him about the FIP and MB call yesterday with the Gov, and also about the draft TSA report and the EE aged out letter. His voice message said that he was out until April 30 and that he was checking voice messages. I wonder if he meant March 30?

I'll send him an email and see what's up and if he still plans to attend the mid year meeting.
